PROFESSIONAL SUMMARY

Game Development student building skills in C++, object-oriented programming, debugging, and software development. I enjoy creating interactive programs and learning through hands-on projects. I'm continuing to develop my technical skills as I work toward a career in game development.

TECHNICAL SKILLS

Programming Languages: C++, HTML, CSS

Software & Tools: Visual Studio, Git, GitHub, Microsoft Office

Technical Concepts: Object-Oriented Programming, Classes & Objects, Functions, Loops, Vectors, Debugging, Version Control, Branches, Pull Requests

TECHNICAL EXPERIENCE

Current Course Project

Restaurant Order System

- Developed a C++ console application for viewing a menu, adding and removing items, clearing orders, and calculating totals.
- Used classes, objects, vectors, functions, and loops to organize the program.
- Used Git and GitHub for commits, branches, issues, milestones, and pull requests.
- Tested and debugged the program through multiple development milestones.

PROJECTS

Restaurant Order System

C++ console application that allows users to view a menu, add and remove items, view order totals, clear an order, and confirm before exiting.

Technologies: C++, Visual Studio, Git, GitHub

EDUCATION

Full Sail University

Bachelor of Science in Game Development

Expected Graduation: 2028

Relevant Coursework:

- Programming Fundamentals
- Object-Oriented Programming
- Software Development
- Version Control
